CURRENT GRANTS

Grant: SAMHSA SERG Resiliency Center 01/14/24-09/13/24 \$150,000
 Hawai'i Department of Health Role: Principal Investigator
Hawai'i Behavioral Health Connection: Hawai'i Psychological Association Disaster Response and Referral
 This project will develop and expand the coordinated referral response system to link Hawai'i residents with licensed mental health providers. Residents face significant delays in services given the provider shortages and lengthy waitlists, which are worsened for our most vulnerable community members and heightened during natural disasters. By combining the successes of the Maui Strong Mental Health Response (MSMHR) and the Hawaii Mental Health Pro Bono Center (HMHPBC) referral systems, and prioritizing cultural components in training, engagement, and outreach, this project will build a significant foundation for future referrals across the state and especially in time of disaster response.

COMPLETED GRANTS
